UN Pooled Funds Review

United for Global Mental Health was requested by the mental health donor group and also members of the BluePrint Group to collate a review of UN-hosted pooled funds in order to identify potential sources of funding for mental health related activities. The following Funds are reviewed in this document in order of greatest relevance to advance financial support to mental health and mental health and psychosocial support (MHPSS). 

There is a summary table and an annex providing a fuller set of information including the links to the relevant funds.

The review provides a summary of each Fund’s purpose (particularly as it relates to mental health); and eligibility (i.e. who can apply and receive funds). It includes global and regional funds that are hosted by various UN Agencies, country-level multi donor trust funds administered by the UNDP Multi-Partner Trust Fund Office, and country-based pooled funds designed to support activities in line with humanitarian response plans (HRPs) and humanitarian needs. Where it is not clear, there is a note on the key areas for funding that could apply to mental health or MHPSS. For each Fund the eligibility criteria area provided.

This document is a non-exhaustive list that will be regularly updated. UnitedGMH welcomes feedback and inputs to this document.
